Why Choose Implant Complete?

Implant Complete is a premium, 11-day program spanning 8 months, offering personalized mentorship designed for general dentists using the Bioconcept system who are eager to excel in implantology. Unlike fragmented courses or questionable "implant tourism," our program provides comprehensive guidance from diagnosis to final restoration, working with your own patients, supported by expert clinical mentorship every step of the way.

Our Program Offers

- **Comprehensive Training:** From diagnosis to final restoration, covering case selection, site preparation, placement, prosthetics, and complications management.
- **Hands-On Experience:** Perform procedures on your own patients under expert supervision
- **Personalized Mentorship:** Work closely with trained expert faculty, including Dr. Bill Liang, for tailored guidance through every step.
- **Ethical & Sustainable:** Prioritize long-term patient outcomes with follow-up care as well as advanced procedures like grafting and sinus lifts performed by faculty when needed.
- **Practice Growth:** Master implantology to grow your practice, learning proven strategies for profitability while boosting revenue and patient satisfaction.

**"The magic is in the magician,
not in the wand" ~ Dr. Bill Liang**

Director of Education & Clinical Development

Program Highlights

- **Duration:** 11 in-person days spanning 8 months, plus self-paced learning and Zoom consults.
- **Locations:** Vancouver & South Surrey, BC.
- **Format:** Lectures, live surgeries, prosthetics, and restoration workshops.
- **Cohort Size:** Only 6 dentists for intensive, one-on-one mentorship.
- **Place:** Up to 10 implants for 2-4 patients.
- **Included:** We supply all kits and components needed post-surgery to complete the restoration.
- **CDA Integration:** Bring your assistant for clinical sessions
- **CE Credits:** 80 credits to advance your professional standing.
- **Exclusive:** Only available to Bioconcept System users.
